

Garden Collection Brockton Lamp Post

Assembly Guide

IMPORTANT! Check for underground services with your local authorities BEFORE installation of this product.

1) Dig a Hole Approximately 21" Deep. Thread Your Power Wire Through the Post. Fill the Hole With Approximately 3" of Gravel for Water Drainage.

2) Insert the Base of the Post Into the Hole and Fill With Concrete or Packed Stone Dust. Using a Hand Level, Ensure the Post is Plumb on All Sides.

3) Attach any lamp to the top of your new lamppost using universal brackets or by following the instructions/brackets supplied with the lamp itself. NOTE: The maximum lamp base size is 5.25" x 5.25".
